Dehumidifying**

Smart
dehumidifying

MEET THE ADVANCED AIR DEHUMIDIFYING AND PURIFICATION SYSTEM

Gorenje's modern air dehumidifiers deliver numerous functions and advantages to afford a better quality of living. The dehumidifier will make short work of problems with excess humidity and improve the quality of air in the room. Optimized airflow system affords **silent and comfortable operation, and the ionizer keeps**

the air clean and fresh. The negative ions emitted by the unit bind the dust particles in the air, making them heavier and drop towards the floor. They are then captured by the unit's filtration system. Electronic control unit allows **neat and easy use, and the alarm will indicate** when the condensate tank is full.

SmartDry

Faster drying of your clothes

Intensively dehumidifies the room with a high-speed fan. Performance is adjusted to the actual humidity and temperature in the room. Maximum operation time for this function is 10 hours.

SmartDehumidifying

Autoset humidity level

The dehumidifier automatically sets the humidity level between 45 and 55% of relative humidity, depending on the actual temperature in the room.

On/off Timer

Set the desired operating time

The humidifier can be programmed to switch on or off automatically within a period of 24 hours.

AutoRestart

Automatic restart

In case of a power supply failure, the appliance automatically restores the most recent operating mode upon restart.

MODEL ID		D 16 M	D 20 M
Dehumidifying capacity	l/24h	16	20
Nominal power	W	350	440
Voltage/frequency/No. of phases	V-Hz-Ph	220-240V/50Hz/1Ph	220-240V/50Hz/1Ph
Refrigerant/filling	-/kg	R134a/0,105	R134a/0,120
Condensate tank volume	l	3	3
Air flow	m ³ /h	150	150
Sound pressure level	dB(A)	50	50
Humidity setting range		35%-85%	35%-85%
Operating temperature range	°C	5-35	5-35
Effective floor area	m ²	29-44	37-52
Unit dimensions (W x D x H)	mm	350x245x510	350x245x510
Unit weight (net/gross)	kg	13,5/14,5	13,5/15
